

Lloydminster GPFC

Indication of Interest

LECTRIX Canada Company is proposing to construct a 150 MW link of the Alberta and Saskatchewan transmission systems utilizing a Siemens supplied Grid Power Flow Controller (“GPFC”) located in Lloydminster, Alberta. Capacity will be offered to all interested parties on a contractual basis. Commercial operations are expected to commence 18 months after regulatory approvals and financing.

This Indication of Interest is a non-binding document and does not in any way constitute a commitment on behalf of the Interested Party. This Indication of Interest registers an Interested Party as having a potential commercial interest in the development and operations of the Lloydminster GPFC. Upon completion of this Indication of Interest, the Interested Party will receive information as it becomes available on:

- Open Season procedures
- Tariff Design
- Regulatory Process
- Schedule Updates
- Supporting information regarding the transfer capabilities of interconnecting transmission facilities.
- Market Research related to buyers and sellers of power and ancillary services who will be able to utilize the GPFC
